The above line of Steamboats runs direct to our Dock, at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by *Steamboats,* (not Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. Forwarding and Commission MERCHANTS, AND DEALERS IN Bolivar and Rochester Coal, CLEVELAND, OHIO.

Refer to L. J. Higby, Thomas P. Williams, and Kellogg, Strong & Co., Milwaukee.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Briar Hill, and for most purposes, is better.

It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

CAPITAL ... $200,000.

THIS Company insures property in two classes, designated as Farmers' Department and Merchants' Department, the accounts of which are kept in separate books, there being no connection, other than that the business of each is under the supervision of the same Board of Directors, thus giving the public the advantage of two Companies, with the expense of one office.

Losses in one class can in no way affect the funds of the other, as the Charter provides that each class shall pay its own losses.

EMPIRE INSURANCE COMPANY, Union Springs, N. Y.

CAPITAL ... $100,000.

THE Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a hearty response from a discerning public. Our Charter and By-Laws require that the applications received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverns, Work-shops, School-houses, Seminaries, Churches, and other kinds of hazardous property, usually taken in the so-called "Farmers' Companies," or "Farmers' Departments." This will render the EMPIRE emphatically a "FARMERS' COMPANY."

They submit for the judgment of their fellow citizens the following summary of their plan of operations:

1. Policies will be divided into distinct Classes; the funds of each class being kept separate, and each paying its own losses. The notes given in one Class are not liable for losses happening in the other.
2. Any applicant may, at his option, pay a definite sum in full for his insurance, in lieu of giving his note.
3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein may be insured to its cash value.
4. The Second Class to consist of Churches, School-houses, Seminary buildings, Work-shops, Taverns, Stores, Mills propelled by water power, &c., and personal property therein.
5. Not more than $3000 will be taken in one risk.
6. Steam Mills of all kinds, Distilleries, Cotton and Woolen Factories, Powder and Oil Mills, Furnaces, Machine Shops, and other extra hazardous property will not be taken by this company.
7. This Company will hold itself responsible for the correctness of all surveys and other official acts of its authorized agents, thus avoiding all cavil as to the technical correctness of surveys, and the consequent liability of the Company.
8. Any policy holder may at pleasure withdraw from the Company by paying his share of the losses up to the time of such withdrawal.
9. This Company will adjust all claims with promptness and liberality, and if at any time a difference shall arise between the Company and its members, to be settled by a mutual reference in the county where the loss shall have occurred.
10. Additional Stoves may be set up, or moved from one room to another, without giving notice to the Company; also, such repairs as do not increase the hazard of the property, need not be notified.
11. This Company will pay losses caused by lightning, whether the buildings are burned or otherwise damaged.
12. Should any more money be collected than sufficient to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall have paid in.

The Directors, in soliciting patronage for the *Empire Insurance Company,* do so in the firm conviction that the plan will be found as CHEAP and SAFE as any company can be made. In arranging their Rates of Hazard, and the kinds of property to be insured in each class, they have sought to secure sufficient cash premiums to meet all losses; laying by the small notes taken as a Reserve Fund, which shall render the Company perfectly safe against all contingencies.

For a more definite and full view of their plan of operations, they respectfully invite an examination of their Rates of Hazard and Classification of Property to be insured.

NEW YORK MUTUAL BENEFIT ASSOCIATION, Union Springs, N. Y.

THIS Association is formed for the mutual relief of its members in case of sickness or accident. A careful examination of its principles, and its beneficent objects, is respectfully solicited. The character and standing of the Board of Directors is a guaranty that the money received will be safely preserved, and faithfully devoted to the objects proposed. The progress of HEALTH INSURANCE, within the past few years, in localities where its principles have been understood, and its benefits realized practically seen and felt, is unparalleled.

Men are literally binding themselves together to bear one another's burdens. No kind of Insurance can be so generally useful as that of Health; for, most people are dependent upon it as the capital which enables them to procure the means of livelihood. Hence, when by disease or accident this is gone, all is gone; and either an unpleasant dependence on friends, or poverty and pauperism, is the consequence. It is not presumed that accident or the ravages of disease can be prevented; but, by a wise forethought, a fountain may be provided, which, when the hand of affliction does come, will soften its asperities, and secure a comfortable support for yourself or family.

BLEAK HOUSE.

BY

CHARLES DICKENS.

CHAPTER VII.—THE GHOST'S WALK.

While Esther sleeps, and while Esther wakes, it is still wet weather down at the place in Lincolnshire. The rain is ever falling, drip, drip, drip, by day and night, upon the broad flagged terrace-pavement, The Ghost's Walk. The weather is so very bad down in Lincolnshire, that the liveliest imagination can scarcely apprehend its ever being fine again. Not that there is any superabundant imagination on the spot, for Sir Leicester is not here (and, truly, if he were, would not do much for it, in that particular), but is in Paris, with my Lady; and solitude, with dusky wings, sits brooding upon Chesney Wold.

There may be some motions of fancy among the lower animals at Chesney Wold. The horses in the stables—the long stables in the barren, red-brick court yard, where there is a great bell in a turret, and a clock with a large face, which the pigeons who live near it, and who love to perch upon its shoulders, seem to be always consulting—they may contemplate some mental pictures of fine weather, on occasions, and may be better artists at them than the grooms. The old roan, so famous for cross-country work, turning his large eye-ball to the grated window near his rack, may remember the fresh leaves that glisten there at other times, and the scents that stream in, and may have a fine run with the hounds, while the human helper, clearing out the next stall, never stirs beyond his pitch-fork and birch broom. The gray, whose place is opposite the door, and who, with an impatient rattle of his halter, pricks his ears, and turns his head so wistfully when it is opened, and to whom the opener says, "Woa, gray, then, steady! Nobody wants you to-day!" may know it quite as well as the man. The whole seemingly monotonous and uncompanionable half-dozen, stabled together, may pass the long wet hours, when the door is shut, in livelier communication than is held in the servant's hall, or at the Dedlock Arms; or may even beguile the time by improving (perhaps corrupting) the pony in the loose box in the corner.

So, the mastiff, dozing in his kennel, in the court-yard, with his large head on his paws, may think of the hot sun shine, when the shadows of the stable-buildings tire his patience out by changing, and leaving him, at one time of the day no broader refuge than the shadow of his own house, where he sits on end, panting and growling short, and very much wanting something to worry, besides himself and his chain. So, now, half-waking and all-winking, he may recall the house full of company, the coach-houses full of vehicles, the stables full of horses, and the out-buildings full of attendants upon horses, until he is undecided about the present, and comes forth to see how it is. Then, with that impatient shake of himself, he may growl in the spirit, "Rain, rain, rain! Nothing but rain—and no family here!" as he goes in again, and lies down with a gloomy yawn.

So with the dogs in the kennel buildings across the park, who have their restless fits, and whose doleful voices, when the wind has been very obstinate, have even made it known in the house itself, up stairs and in my lady's chamber. They may hunt the country side, while the rain-drops are pattering round their inactivity. So the rabbits with their self-betraying tails, frisking in and out of holes at roots of trees, may be lively with ideas of the breezy days when their ears are blown about, or of those seasons of interest, when there are sweet young plants to gnaw. The turkey in the poultry-yard, always troubled with a class-grievance (probably Christmas) may be reminiscent of that summer morning wrongfully taken from him, when he got into the lane among the felled trees, where there was a barn and barley. The discontented goose, who stoops to pass under the old gate-way, twenty feet high, may gabble, if we only knew it, a waddling preference for the weather when the gateway casts its shadow on the ground.

Be this as it may, there is not much fancy otherwise stirring at Chesney Wold. If there be a little at any odd moment, it goes, like a little noise in that old echoing place, a long way, and usually leads off to ghosts and mystery.

It has rained so hard and rained so long, down in Lincolnshire, that Mrs. Rouncewell, the old housekeeper at Chesney Wold, has several times taken off her spectacles and cleaned them, to make certain that the drops were not upon the glasses. Mrs. Rouncewell might have been sufficiently assured by hearing the rain, but that she is rather deaf, which nothing will induce her to believe. She is a fine old lady, handsome, stately, wonderfully neat, and has such a back, and such a stomacher, that if her stays should turn out when she dies to have been a broad oldfashioned family fire-grate, nobody who knows her would have cause to be surprised. Weather affects Mrs. Rouncewell little. The house is there in all weathers, and the house, as she expresses it, "is what she looks at." She sits in her room (in a side passage on the ground floor, with an arched window commanding a smooth quadrangle, adorned at regular intervals with smooth round trees and smooth round blocks of stone, as if the trees were going to play at bowls with the stones,) and the whole house reposes on her mind. She can open it on occasions, and be busy and fluttered; but it is shut up now, and lies on the breadth of Mrs. Rouncewell's iron-bound bosom, in a majestic sleep.

It is the next difficult thing to an impossibility to imagine Chesney Wold without Mrs. Rouncewell, but she has only been here for the last fifty years. Ask her how long, this rainy day, and she shall answer, "fifty years, three months, and a fortnight, by the blessing of heaven, if I live till Tuesday." Mr. Rouncewell died sometime before the decease of the pretty fashion of pig-tails, and modestly laid his own (if he took it with him) in a corner of the church-yard, in the park, near the mouldy porch. He was born in the market town, and so was his young widow. Her progress in the family began in the time of the last Sir Leicester, and originated in the still-room.

The present representative of the Dedlocks is an excellent master. He supposes all his dependents to be utterly bereft of individual characters, intentions, or opinions, and is persuaded that he was born to supercede the necessity of their having any. If he were to make a discovery to the contrary, he would be simply stunned—would never recover himself, most likely, except to gasp and die. But he is an excellent master still, holding it a part of his state to be so. He has a great liking for Mrs. Rouncewell; he says she is a most respectable, creditable woman. He always shakes hands with her, when he comes down to Chesney Wold, and when he goes away; and if he were very ill, or if he were knocked down by accident, or run over, or placed in any situation expressive of a Dedlock at a disadvantage, he would say, if he could speak, "Leave me, and send Mrs. Rouncewell here!" feeling his dignity, at such a pass, safer with her than with any body else.

Mrs. Rouncewell has known trouble. She has had two sons, of whom the younger ran wild, and went for a soldier, and never came back. Even to this hour, Mrs. Rouncewell's calm hands lose their composure when she speaks of him, and unfolding themselves from her stomacher, hover about her in an agitated manner, as she says, what a likely lad, what a fine lad, what a gay, good-humored, clever lad he was! Her second son would have been provided for at Chesney Wold, and would have been made steward in due season; but he took, when he was a schoolboy, to constructing steam engines out of sauce-pans, and setting birds to draw their own water, with the least possible amount of labor; so assisting them with artful contrivance of hydraulic pressure, that a thirsty canary had only, in a literal sense, to put his shoulder to the wheel and the job was done.

This propensity gave Mrs. Rouncewell great uneasiness. She felt it, with a mother's anguish, to be a move in the Wat Tyler direction: well knowing that Sir Leicester had that general impression of an aptitude for any art of which smoke and a tall chimney might be considered essential. But the doomed young rebel (otherwise a mild youth, and very persevering) showing no sign of grace as he got older; but, on the contrary, constructing a model of a power-loom, she was fain, with many tears, to mention his backslidings to the baronet. "Mrs Rouncewell," said Sir Leicester, "I can never consent to argue, as you know, with any one on any subject. You had better get rid of your boy; you had better get him into some Works. The iron country farther north is, I suppose, the congenial direction for a boy with these tendencies." Further north he went, and further north he grew up, and if Sir Leicester Dedlock ever saw him, when he came to Chesney Wold to visit his mother, or ever thought of him afterward, it is certain that he only regarded him as one of a body of some odd thousand conspirators, swarthy and grim, who were in the habit of turning out by torch-light, two or three nights in the week, for unlawful purposes.

Nevertheless, Mrs. Rouncewell's son has, in the course of nature and art, grown up, and established himself, and married, and called unto him Mrs. Rouncewell's grandson—who, being out of his apprenticeship, and home from a journey in far countries, whither he was sent to enlarge his knowledge and complete his preparation for the venture of this life, stands leaning against the chimney-piece this very day, in Mrs. Rouncewell's room at Chesney Wold.

"And, again and again, I am glad to see you, Watt! And, once again, I am glad to see you, Watt!" said Mrs. Rouncewell. "You are a fine young fellow. You are like your poor uncle George. Ah!" Mrs. Rouncewell's hands unquiet, as usual, on this reference.

"They say I am like my father, grandmother."

"Like him, also, my dear—but most like your poor uncle George! And your dear father," Mrs. Rouncewell folds her hands again. "He is well?"

"Thriving, grandmother, in every way."

"I am thankful!" Mrs. Rouncewell is fond of her son, but has a plaintive feeling towards him—much as if he were a very honorable soldier, who had gone over to the enemy.

"He is quite happy?" says she.

"Quite."

"I am thankful! So, he has brought you up to follow in his ways, and has sent you into foreign countries and the like? Well, he knows best. There may be a world beyond Chesney Wold that I don't understand. Though I am not young, either. And I have seen a quantity of good company, too!"

"Grandmother," says the young man, changing the subject, "what a very pretty girl that was, I found with you just now. You called her Rosa?"

"Yes, child. She is daughter of a widow in the village. Maids are so hard to teach, now-a-days, that I have put her about me young. She's an apt scholar, and will do well. She shows the house already, very pretty. She lives with me, at my table here."

"I hope I have not driven her away?"

"She supposes we have family affairs to speak about, I dare say. She is very modest. It is a fine quality in a young woman. And scarcer," says Mrs. Rouncewell, expanding her stomacher to its utmost limits, "than it formerly was!"

The young man inclines his head, in acknowledgment of the precepts of experience. Mrs Rouncewell listens.

"Wheels!" said she. They have long been audible to the younger ears of her companion. "What, wheels on such a day as this, for gracious sake?"

After a short interval, a tap at the door. "Come in!" A dark-eyed, dark-haired, shy village beauty comes in—so fresh in her rosy and yet delicate bloom, that the drops of rain, which have beaten on her hair, look like the dew upon a flower fresh gathered.

"What company is this, Rosa?" said Mrs. Rouncewell.

"It's two young men in a gig, ma'am, who want to see the house—yes, and if you please, I told them so!" in quick reply to a gesture of dissent from the housekeeper. "I went to the hall door, and told them it was the wrong day, and the wrong hour; but the young man who was driving took off his hat in the wet, and begged me to bring this card to you."

"Read it, my dear Watt," says the housekeeper.

Rosa is so shy as she gives it to him, that they drop it between them, and almost knock their foreheads together as they pick it up. Rosa is shyer than before.

"Mr. Guppy" is all the information the card yields.

"Guppy!" repeats Mr. Rouncewell. "Mr. Guppy! Nonsense, I never heared of him!"

"If you please, he told *me* that!" says Rosa—"But he said that he and the other young gentleman came from London only last night by the mail, on business at the magistrates' meeting ten miles off, this morning; and that as their business was soon over, and they had heard a great deal said of Chesney Wold, and really didn't know what to do with themselves, they had come through the wet to see it. They are lawyers. He says he is not in Mr. Tulkinghorn's office, but is sure he may make use of Mr. Tulkinghorn's name, if necessary." Finding, now she leaves off, that she has been making quite a long speech, Rosa is shyer then ever.

Now, Mr. Tulkinghorn is, in a manner, part and parcel of the place; and, besides, is supposed to have made Mrs. Rouncewell's will. The old lady relaxes, consents to the admission of the visitors as a favor, and dismisses Rosa. The grandson, however, being smitten by a sudden wish to see the house himself, purposes to join the party. The grandmother, who is pleased that he should have that interest, accompanies him—though, to do him justice, he is exceedingly unwilling to trouble her.

"Much obliged to you, ma'am," said Mr. Guppy, "Us London lawyers don't often get an out; and when we do, we like to make the most of it, you know."

The old housekeeper, with a gracious severity, of deportment, waves her hand towards the great staircase. Mr. Guppy and his friends follow Rosa, Mrs. Rouncewell and her grandson follow them, a young gardener goes before to open the shutters.

As is usually the case with people who go over houses, Mr. Guppy and his friend are dead beat before they have well begun. They straggle about in wrong places, look at wrong things, don't care for the right things, gape when more rooms are opened, exhibit profound depression of spirits, and are clearly knocked up. In each successive chamber that they enter, Mrs. Rouncewell, who is as upright as the house itself, rests apart in the window seat, or other such nook, and listens with stately approval to Rosa's exposition. Her grandson is so attentive to it, that Rosa is shyer than ever—and prettier. Thus they pass on from room to room, raising the pictured Dedlocks for a few brief minutes as the young gardener admits the light, and reconsigning them to their graves as he shuts it out again. It appears to the afflicted Mr. Guppy and his inconsolable friend, that there is no end to the Dedlocks, whose family greatness seems to consist in their never having done anything to distinguish themselves, for seven hundred years.

Even the long drawing room of Chesney Wold cannot revive Mr. Guppy's spirits. He is so low that he droops on the threshold, and has hardly strength of mind to enter. But a portrait over the chimney-piece, painted by the fashionable artist of the day, acts upon him like a charm. He recovers in a moment. He stares at it with uncommon interest; he seems to be fixed and fascinated by it.

"Dear me!" says Mr. Guppy. "Who's that?"

"The picture over the fire-place," says Rosa, "is the portrait of the present Lady Dedlock. It is considered a perfect likeness, and the best work of the master."

"Blest!" says Mr. Guppy, staring in a kind of dismay at his friend, "if I can ever have seen her. Yet I know her! Has the picture been engraved miss?"

"The picture has never been engraved. Sir Leicester has always refused permission."

"Well!" says Mr. Guppy, in a low voice, "I'll be shot if it aint very curious how well I know that picture! So that's Lady Dedlock, is it?"

"The picture on the right is the present Sir Leicester Dedlock. The picture on the left is his father, the late Sir Leicester."

Mr. Guppy has no eyes for either of these magnates. "It's unaccountable to me," he says, still staring at the portrait, "how well I know that picture! I'm dashed!" adds Mr. Guppy, looking round, "if I don't think I must have had a dream of that picture, you know!"

As no one present takes any especial interest in Mr. Guppy's dreams, the probability is not pursued. But he still remains so absorbed by the portrait, that he stands immovable before it until the young gardener has closed the shutters; when he comes out of the room in a dazed state, that is an odd though a sufficient substitute for interest, and follows into the succeeding rooms with a confused stare, as if he were looking everywhere for Lady Dedlock again.

He sees no more of her. He sees her rooms which are the last shown, as being very elegant and he looks out of the windows, from which she looked out, not long ago, upon the weather that bored her to death. All things have an end—even houses that people take infinite pains to see, and are tired of before they begin to see them. He has come to the end of the sight, and the fresh village beauty to the end of her description; which is always this:

"The terrace below is much admired. It is called, from an old story in the family, The Ghost's Walk."

"No?" says Mr. Guppy, greedily curious; "what's the story, miss! Is it any thing about a picture?"

"Pray tell us the story," says Watt, in a half whisper.

"I don't know it, sir." Rosa is shyer than ever.

"It is not related to visitors; it is almost forgotten," says the housekeeper, advancing: "It has never been more than a family anecdote."

"You'll excuse my asking again if it has anything to do with a picture, ma'am," observes Mr. Guppy, because I do assure you that the more I think of that picture the better I know it, without knowing how I know it!"

The story has nothing to do with a picture; the housekeeper can guarantee that. Mr. Guppy is obliged to her for the information; and is, moreover, generally obliged. He retires with his friend, guided down another staircase by the young gardener; and presently is heard to drive away. It is now dusk. Mrs. Rouncewell can trust to the discretion of her two young hearers, and may tell them how the terrace came to have that ghostly name. She seats herself in a large chair by the fast-darkening window, and tells them:

"In the wicked days, my dears, of King Charle the First—I mean, of course, in the wicked day of the rebels who leagued themselves against that excellent King—Sir Morbury Dedlock was the owner of Chesney Wold. Whether there was any account of a ghost in the family before those days, I can't say. I should think it very likely indeed."

Mrs. Rouncewell holds this opinion, because she considers that a family of such antiquity and importance has a right to a ghost. She regards a ghost as one of the privileges of the upper class; a genteel distinction to which the common have no claim.

"Sir Morbury Dedlock," says Mrs. Rouncewell, "was, I have no occasion to say, on the side of the blessed martyr. But it is supposed that his lady, who had none of the family blood in her veins, favored the bad cause. It is said that she had relations among King Charles's enemies; that she was in correspondence with them; and that she gave them information. When any of the country gentlemen who followed his Majesty's cause met here, it is said that my lady was always nearer to the door of their councilroom than they supposed. Do you hear a sound like a footstep passing along the terrace, Watt?"

Rosa draws nearer to the housekeeper.

"I hear the rain-drip on the stones," replies the young man, "and I hear a curious echo—I suppose an echo—which is very like a halting step."

The housekeeper gravely nods and continues.

"Partly on account of this division between them, and partly on other accounts, Sir Morbury and his lady led a troubled life. She was a lady of a haughty temper. They were not well suited to each other in age or character, and they had no children to moderate between them. After her favorite brother, a young gentleman, was killed in the civil wars (by Sir Morbury's near kinsman), her feeling was so violent that she hated the race into which she had married—When the Dedlocks were about to ride out from Chesney wold in the King's cause, she is supposed to have more then once stolen down into the stables in the dead of night, and lamed their horses; and the story is, that once, at such an hour, her husband saw her gliding down the stairs, and followed her into the stall where his own favorite horse stood. There he seized her by the wrist; and in a struggle, or in a fall, or through the horse being frightened and lashing out, she was lamed in the hip, and from that moment began to pine away."

The housekeeper has dropped her voice to little more than a whisper.

"She had been a lady of a handsome figure and noble carriage. She never complained of the change; she never spoke to any one of being crippled, or of being in pain; but, day by day, she tried to walk upon the terrace; and with the help of a stick, and with the help of the stone balustrade, went up and down, up and down, up and down, in sun and shadow, with greater difficulty every day. At last, one afternoon, her husband (to whom she had never, on any persuasion, opened her lips, since that night,) standing at the great south window, saw her drop upon the pavement. He hastened down to raise her, but she repulsed him as he bent over her, and looking at him fixedly and coldly, said, 'I will die here, where I have walked. And I will walk here, though I am in my grave. I will walk here, until the pride of the house is humbled. And when calamity, or when disgrace is coming to it, let the Dedlocks listen to my step!'" Watts looks at Rosa. Rosa, in the deepening gloom, looks down upon the ground, half frightened, and half shy.

"There and then she died. And from these days," says Mrs. Rouncewell, "the name has come down—The Ghost's Walk. If the tread is an echo, it is an echo that is only heard after dark, and is often heard for a long while together. But it comes back, from time to time; and so sure as there is sickness, or death in the family, it will be heard then."

"—And disgrace, grandmother—" says Watt.

"Disgrace never comes to Chesney Wold," returns the housekeeper.

Her grandson apologies, with "True. True."

"That is the story. Whatever the sound is, it is a worrying sound," says Mrs. Rouncewell, getting up from her chair, "and what is to be noticed in it is, that it *must be heard.* My lady, who is afraid of nothing, admits that when it is there, it must be heard. You cannot shut it out. Watt, there is a tall French clock behind you (placed there a'purpose) that has a loud beat when it is in motion, and can play music. You understand how these things are managed?"

"Pretty well, grandmother, I think."

"Set it a-going."

Watt sets it a-going—music and all.

"Now, come hither," says the houskeeper. 'Hither, child, toward my lady's pillow. I am not sure that it's dark enough yet, but listen! Can you hear the sound upon the terrace through the music and the beat, and every thing?"

"I certainly can!"

"So my lady says."

UNDER THE NAME AND FIRM OF

RUFUS KING & CO.

THE BANKING LAW---RAILROAD SECURITIES.

We are sorry to see that our friends of the Watertown *Chronicle*, who stood with us gallantly in the battle for Banks last fall, are so much prejudiced against the new feature incorporated in the law providing for the acceptance of Railroad Bonds as part of the securities to be deposited under certain stringent conditions. We copy below an extract from a late article of the *Chronicle*;

Among other things, it makes railroad bonds a basis for banking. How will these, in many instances, be obtained? Thoroughfares of this description will be constructed upon routes, the legitimate business of which will be insufficient to sustain them. These structures will be as cheap as the purposes for which they are intended will possibly admit of, and their "equipments, depots, fixtures, machinery," &c." correspondingly so. When completed, their projectors, bank directors in expectancy, and their tools, will resort to the most extraordinary means to secure business to them. These men will scour the surrounding country, and by dint of begging and the promise of future "bank accommodations," will prevail upon farmers and merchants to send their produce and goods over these roads. Whenever, by such illegitimate means, the roads shall have been made to earn a per centage in the shape of ostensible profits equal to that required by this law, steps will be at once taken to commence the business of banking upon their bonds to the tune of $8,000 per mile.

The primary object for which these roads shall have been built, having thus been accomplished, they will be left, so to speak, to take care of themselves.

And upon the realization of such a state of things, resulting from the adoption of the law, the *Chronicle* is ready to "stake its reputation as a prophet." We shan't consent to place our friends reputation at any such hazard. No such strange results can ever be accomplished by any such means. The laws of trade imperatively forbid any such thing.

But since we have given above the views of an able opponent of the railroad securities, as to the results of the system, let us again compare with them the features of the Law—the stringent conditions under which only such securities can be taken. We take them in the order in which they occur in the printed law.

1st. They must be 7 per cent bonds at least.

2d. They can only be taken to the amount of half the notes issued.

3d. They must be the first lien upon the road, and all its deposits, equipments, &c.

4th. The road must be 40 miles long, if part of a road, and 20 miles at least, if a whole road.

5th. The Governor, Comptroller, and Attorney General must, after actual inspection, file a certificate that the road "has been constructed in a substantial manner, with a solid road bed, and with a rail of T. or H, or other approved pattern and weight, of in no case less than fifty to the yard, similar to the other roads of the first class and has been fully equipped and in actual operation, and has earned for the year next preceding a net revenue, greater than the interest on the bonds or obligations secured thereon by such mortgage or deed of trust."

6th. The directors of the road, under oath, must set forth the cost of the road, and the net revenues which it has earned.

7th. The bonds cannot be received at more than 80 cents on the dollar of their actual and current value, nor exceeding half the cost of the road, nor, in any event, at over $8000 per mile.

8th. If the securities at any time are thought by the Governor and Comptroller to be "doubtful or liable to be seriously impaired," or shall have depreciated, the bank comptroller shall reduce the rate at which the same shall be continued to be held as securities, and require other bonds or obligations, or public stocks of the United States, or of any State, to be deposited to make good the deficit.

Never, in our opinion, in the whole range of legislation, was anything more effectually and absolutely guarded than this system; and we cannot but think that it must commend itself, after due reflection, to the confidence and support of the press and the people everywhere.

But, further, the *Chronicle* says:

We believe that the bonds of roads paying as large dividends annually as the average of roads in the United States, do not afford a sufficiently sole basis for banking. Why? Because the stocks of these roads never command in our best markets a price that will admit of their being made convertible at anything approximating to their nominal value. It is said that "facts are stubborn things." Let us look at a few of these.

The facts adduced are that, of a large number of railroad *stocks* named, the average price quoted in New York on the 22d April was 86c on the dollar. We quote the *Chronicle* again:

And here let us ask, what is the prospect of the bonds of railroads in Wisconsin ever being more safe or valuable than those in New York! Will some of the friends of our new banking law, deign to give as a candid answer to this candid question?

The answer is easy and ready, Yankee-fashion; Why do you persist in confounding *stocks* and *bonds*? Why do you not quote the rates of railroad *bonds*, the only parallel case? Let us look at the difference.

We quote from the N. Y. Stock Market of the 7th of May.

	STOCKS	BONDS
Erie Rail Road	99½	—
" 1st Mtge.	—	116
" 2d Mtge	—	106¾
" Income	—	98
" Convertibles	—	97¾
Hudson River R. R.	62½	
" " 1st Mtge.	—	108½
" " 2d Mtge.	—	95¾
Harlem R. R	75	112
Madison and Indiana	101	110

Here are the U. S. and State Stocks quoted on the same day:

U. S. 6's of 1862	114
U. S 6s of 1867	119
U. S. 6's of 1868	118¾
Ohio 6's of 1860	108½
Virginia 6s of 1856	110
Indiana preferred 5's	44
" States 5's	90¾

The above table shows the enormous difference in the market between *stocks* and *bonds*. Bonds—not stocks—are the securities which our Banking Law proposes to receive, and that under most careful provisions. Will the *Chronicle* make its readers acquainted with this difference? Of course it will, or we mistake its character.

State Emigration Agent.

The Sheboygan *Nieuwsbode*, after copying our brief paragraph relative to the appointment of Mr. G. Van Steinwijk, to the above important post, says —

We fully endorse the above, and think that no better appointment could have been made.

From conversations we had with him at various occasions, we feel at liberty to say, that Mr. Van Steinwijk is well acquainted with the English, German and French languages, besides his own, and that he is otherwise fully qualified to discharge the duties of that important State office. As such, we trust, he will regard it, and thereby not labor for some particular localities, but for the benefit of the State at large.

Just in that light does Mr. Van S. regard the duties of his office. He left yesterday morning for his station, and will proceed immediately to New York, stopping only for a brief period at Buffalo and Albany, to make some necessary arrangements there in matters connected with his mission. We do not doubt that great benefit will result to the State from his efforts, and we commend him heartily to the aid and comfort of all who regard Wisconsin, and who desire to see the emigrants from the old World comfortably settled and happily situated. The tide has set in early this Spring, and has not yet nearly reached its flood.

Our Detroit Exchanges.—The Detroit papers which leave that city every morning by Railroad for the West, *ought* to reach Milwaukee the next afternoon, as passengers do. But while the passengers invariably arrive, the papers *invariably miss*. They are regularly one day behind hand. Will our Detroit contemporaries aid us in ascertaining the cause of this delay? Our own belief is that the Mails for Milwaukee are detained at Chicago, where there is a Distributing P. O. We cannot account for the delay in any other way.

City Matters.

Mr. Lord's Lecture.—A very small, if very select, audience, listened on Wednesday evening to the Lecture delivered by Mr. Lord, upon the suppression of the Jesuits. The few who were present, were amply repaid. The lecturer sketched rapidly the history of the suppression of the order in various countries, and finally by Pope Clement XIV, bringing before his hearers in a series of vivid pictures, the interesting facts connected with the fall of the powerful society referred to. He then sketched the state of feeling among the people at the time, leading them to demand and acquiesce in the suppression. Following this, was a very interesting philosophical review of the early intentions of Loyola, the great founder of the Jesuits—their gradual progress to an almost entire control of the affairs, spiritual and temporal, of the Empires of the World—and their corruptions, resulting from the entire loss of individuality, and complete automaton state to which the members were reduced.

We have one comfort for the hundreds who ought to have been present but were not; and that is, that they lost, by all odds, the best lecture delivered thus far in the city, within our remembrance. The encouragement did not seem sufficient to induce Mr. Lord to deliver another lecture, and so we are obliged to lose the pleasure of listening to him again.

P. S. Since writing the above, we learn that there is still a chance for our citizens to hear a course of lectures from Mr. Lord, From our information, we believe that if proper steps are immediately taken to send an invitation to him at Chicago, with sufficient inducements in the way of assuring him good houses, he would come. Will not somebody take the matter in hand at once?

A resolution was offered by Ald. Brown, reciting the protest of the *Free Democrat* and *Banner*, with regard to prices to be paid to them, and discharging the proprietors of those papers from further employment.

Ald. Huebschmann thought that the Council could not displace the officers (he considered the City Printers city officers) without due course of law according to the charter.

Ald. Brown said that the resolution proposed was the best course to take, inasmuch as those papers had defied the Common Council as to their pay.

Ald. Roesbeck thought that the Council ought to give the printers 30 days to decide whether or not they would accept the price fixed.

Ald. Huebschmann moved to refer to the City Attorney to report his opinion as to whether the protest referred to amounts to a resignation.

Ald. Prentiss recalled the fact that the printers had given out and accepted their offices under a state of things which left their pay to be fixed by ordinance, and now that it was fixed, they refuse to do the work according to the rate proposed by the Council.

Maine Liquor Law in Massachusetts.—The Massachusetts Liquor bill, which has just passed the Legislature of that State, provides that the act shall take effect on Saturday, the 19th of June, and that on Monday, the 21st of June, the people shall be called together and vote on the question—whether the law shall be suspended in its operations for one year, or continue in effect. If the vote is to suspend operations, the Governor is to issue his proclamation, suspending the law.

In the Whig camp, all is bustle, commotion and uncertainty. Fillmore stock is rising. He has secured the delegation from New York city.—*Free Democrat*, 12th inst.

As the Delegation from New York City has not yet been chosen, we are somewhat curious to know how the *Free Democrat* ascertained that Mr. Fillmore has "secured" it.

Rail Road Bills in the Senate.—The U. S Senate on the 6th instant passed the bill granting land to this State in aid of the Milwaukee and Mississippi and Rock River Valley Rail Roads.—Its success in the House is doubtful; a majority of that branch being disposed to pass the Homestead Bill, giving away the Public Lands to actual settlers and of course rendering grants for Internal Improvement purposes comparatively valueless

Election of County Judge in Winnebago County.—Governor Farwell has issued a Proclamation for an election in Winnebago county, on Saturday, the 29th inst., to fill the vacancy in the office of County Judge, occasioned by the resignation of Jed. Brown, Esq. Mr. Blodgett's appointment was only temporary.

KIMBALL'S CELEBRATED IMPERIAL BAKING POWDER.

THIS preparation has been sold extensively in this city during the past year under the style of "Imperial Baking Powder.

The high reputation which it has acquired, and the increasing demand for it, is satisfactory proof of the estimation in which it is held by those who have given it a trial

This increasing demand has induced the proprietor to make arrangements to manufacture a full supply, and to warrant it equal, if not superior, to all others. And the only "CAUTION" to be observed by those who wish for a first-rate article, is to mark the label, which hereafter will be found upon every Package, viz: "KIMBALL'S CELEBRATED IMPERIAL BAKING POWDER."

Price, One Dime per Roll; 3 Rolls for 25 cts or $1 per doz. A liberal discount made to Country Merchants

The Candy is neatly put up with directions for use. A handsome engraving of the Scottish Coat of Arms, and the written signature of Hamilton Wade, (proprietor), is on the outside wrapper of each roll and package.

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

DAILY SENTINEL.

BY TELEGRAPH.

Reported for the Daily Sentinel.

BY SPEED'S LINE.

Five persons Killed on the Michigan C. Railroad---Engineer arrested---Warehouse fall in Chicago---Fire in New York.

Chicago, May 13—12 M.

The number of persons who have died up to this time, of the effects of the collision on the Michigan Central Railroad, is five. Twelve are reported seriously injured. The accident is stated to have occurred through the carelessness of the Engineer on the new train—a man who has been in the employ of the company a long time, and has hitherto been considered one of the most careful. He was arrested by the authorities at Niles.

About 11 o'clock, to-day, the entire front of a large brick Warehouse on Market street, Chicago, filled with corn, and belonging to C. M Reed, of Erie, fell out into the street, filling it to the depth of 10 to 20 feet with bricks and grain.

It is feared that several persons are buried under the fallen mass. As many men as can work at once, are now removing the rubbish and grain. We shall give particulars as fast as they come to us.

12½ P. M.

French's Hotel, New York City, is now burning.

The Bank Law and Railroad Bonds.—The Marquette *Mercury* (dem.) holds the following language in relation to the General Banking Law:

We have not given it an entire perusal, but from what we know of it, it would seem to be quite acceptable to the people; much better than was anticipated by the opponents of Banking. The deposite of Railroad Bonds with other adequate securities, is an excellent feature in the Bill, and will subserve two purposes,—that of making the security ample and sure for the bill holder, and an inducement to the carrying on of a general system of railroads. We have but little faith in the foreign stock deposits, but Railroad Bonds command the highest value in the markets. The beauty of the system then, is that capital will be turned to the building of Railroads—the bonds of which will form the basis to bank upon; that is if the intention of the Legislature is regarded with an honest purpose, and with a view to an honest and safe system of Banking.

The Emigration.—Hundreds of California and Oregon emigrants, arrive in our city daily. From present appearances, the emigration will be larger than it was in 1849 or 1850. We learn by a gentleman, who came through from Hannibal by land, that the road is crowded with teams, and hundreds are daily crossing the Mississippi at various points. We notice among the emigrants several families, who go out with the intention of making permanent settlements. The ferries at this city, are crossing large numbers every day, who are making arrangements to leave in a short time. In ten days hundreds will be on the plains, but how their stock is to subsist, is a mystery to us, as there is not yet a particle of grass on the plains. We find that the more experienced are willing to await the appearance of grass, before embarking upon so perilous a journey.—*St Joseph (Mo) Gazette.*

Great Fire Engine Feat

Philadelphia, May 6.

The Independent Engine Company, of Baltimore, tried the power of their engine this morning, in front of Jaynes's building, and threw the water 45 feet above the cupola, being a total height of 184 feet, and beating any engine ever tested here.

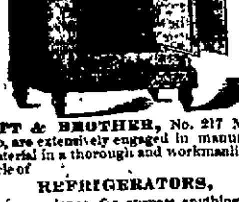

Green Bay and Depere Plank Road.—We are glad to have it in our power to say that the sum of $2,900—sufficient for the organization of the Company—was subscribed to the Green Bay and Depere Plank Road Company, on Saturday last. So that the Road to Depere is "a fixed fact."—*Green Bay Spectator.*

Another Rail Road Accident.—The steam boat express train going west yesterday afternoon ran against and instantly killed a Mrs. Mershon, wife of Wells & Co's. Express Agent, at Waterloo. The lady was crossing the track at Waterloo, when the express train came upon her, the cowcatcher throwing her a rod or so, with great violence, producing instant death. This is the third fatal accident that has happened on the Rochester and Syracuse Road this week, between here and Rochester. No body to blame, of course.

Auburn Adv.

Rebuilt.—The steam saw mill at Vicksburgh, eight miles east of this village, on the plank road, which was destroyed by fire last summer, has been rebuilt, and is again in full operation. The building is one of the most substantial of the kind in the county, 30 by 56 feet, and two stories high.—The engine and other machinery work to a charm. A. R. Gilder, Esq., proprietor.—*Watertown Chron.*

CAUTION EXTRAORDINARY.

PURCHASERS of "Baking Powder" are requested to buy none but those having the written signature of E. R. Durkee upon the wrapper. This article is now widely known, and Hotel keepers having pronounced it the cheapest and best preparation, for the purposes recommended; and having been brought into general use, by families in this City, there are those who are endeavoring to reap the benefits, by palming off upon the public a "Counterfeit article." See therefore that you purchase none, but "Durkees" whose signature is upon the wrapper of every package. BOSWORTH & SONS.

HAWKINS'

STAVE DRESSING MACHINE.

PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm Hawkins in this city, and will dress Staves for

Packing, Flour and Whiskey BARRELS,

and PIPES or HOGSHEADS, at the rate of

600 Whiskey or 800 Flour Barrel Staves

straight, winding or crooked. In fact, any stave that can be worked by hand will be dressed by this machine, either for tight or slack work, from 22 inches to 72 inches in length of any reasonable width, and *to any requisite bilge*, and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters, and is then ready for the truss hoops. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary.

The Subscribers having purchased of Wm Hawkins the patent right for the United States, are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. In the great saving of expense of transportation of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this machine.

Satisfactory testimonials can be furnished if desired.

Graefenberg Medicines

HAVE YOU USED THEM?

AS popular medicines, prepared carefully and scientifically, and adapted to the wants of the American public, they have no superiors. They are emphatically what they are represented to be, *genuine*, and free from *Humbug*, intended as much to *cure* as to *sell*. When once used, they are universally relied upon, and no *Family* should be without these truly valuable aids to *Health*. In many instances the *regular faculty* recommend and use them, such is their force over the prejudices of those so generally opposed to the circulation of POPULAR MEDICINES. No *Family Physician*, in ordinary cases, is needed by those who own the *Graefenberg Manual of Health*, and strictly abide by its directions in the use of the medicines.

A word to the *wise* is sufficient, without the publication of certificates, which we have of the most flattering description always open for the inspection of the incredulous.

We will enumerate in conclusion the various preparations of this Company, which may be found in every town in the State throughout the Union.

THE GRAEFENBERG SARSAPARILLA, is purely vegetable, no *big bottle humbug*, or pleasant drink, but *as it should be, a Medicine* of the greatest power in promoting an entire change in the system, by eradicating those impurities of the blood which are the seeds of almost incurable disease in man.

THE GRAEFENBERG DYSENTERY SYRUP—Public approbation has stamped upon it the character of *perfect*. It has checked the ravages of *Cholera* in its last stages and for bowel complaints it has no equals.

THE GRAEFENBERG VEGETABLE PILLS, are particularly valuable for the prevention and cure of *Fevers* in general. They act gently, naturally and surely and in connection with our *Health Bitters*, are a certain and speedy cure for the Fever and Ague. The *Bitters* have a wonderful effect in invigorating a debilitated system.

THE GRAEFENBERG GREEN MT OINTMENT—In reducing inflammation, healing burns, bruises, and all injuries to the body, we can confidently recommend this salve to all as being most efficacious. In the *Mineral Region* of our State its merits are universally appreciated.

THE GRAEFENBERG EYE LOTION—An unpretending article, but one which meets with large sales in the West, and has been the humble means of relieving thousands from intolerable pain arising from injured or diseased eyes. Try it.

THE GRAEFENBERG UTERINE CATHOLICON—This is perhaps the most valuable medicine of this Company, inasmuch as it reaches cases despaired of by the most scientific physicians. For Prolapsus Uteri, and all complaints incident to *Females*, it will be found a safe and speedy remedy. Let no *afflicted woman* be deterred by delicacy or prejudice from giving it a fair trial. Inquire of the agent for the pamphlet in relation to it.

THE GRAEFENBERG PILE OINTMENT, CHILD'S PANACEA, &c., are all invaluable remedies, directions for which and all the medicines are attached to each.

PATENT MEDICINES.

Entered, according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S

GREAT DYSPEPSIA CURER!

THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia," and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful.

Dr. Graham, author of the famous works on "Vegetable Diet," says "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. Houghton's PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use of Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

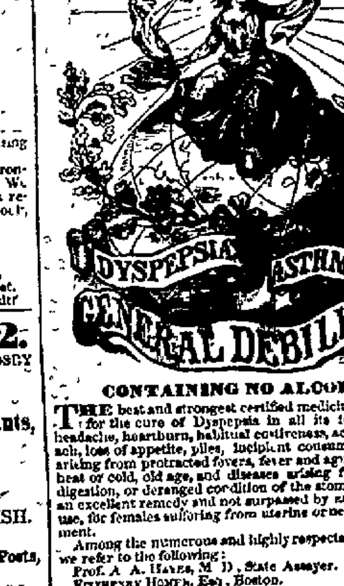

Observe this.—Every bottle of the genuine Pepsin bears the written signature of J. S Houghton, M D, sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

Sold by all Druggists and Dealers in Medicine.

It is also an excellent remedy and not surpassed by any medicine in use, for females suffering from uterine or nervous derangement.

THE WORLD'S FAIR PREMIUM SAFES.

DEPOT, Green Block, Water St., (Between Maiden Lane and Wall Street,) NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an impartial jury awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe. He has never failed to obtain the highest premium when his Safes have been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, who have had their books, papers and money preserved in these superior Safes within the last thirty days, (and can, with many others, be seen at my store,) viz: Messrs. Stilwell & Montross, and Mr. J. L. Watkins, in the Fulton Street fire; Messrs. Fisher & Rollinson, and Messrs. John Lockwood & Co., in the great fire corner of Liberty and Nassau Streets, and Messrs. Proud & Bowman, in Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston,) at the World's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder, and the Key is no larger than a cent, and can be made changeable.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp-Proof Safes combined.

MR. GILBERT'S LETTER.

THE FIRE IN FLETCHER AND PEARL-STS., NEW YORK.

New York, Dec. 20, 1851.

Messrs. Stearns and Marvin, successors, to C. Rich & Co., No. 146, Water Street, New York—Sirs, when the fire was consuming my place of Business, No. 216, Pearl street, I was absent in Rensselaer County, testing a new cleaning apparatus in connection with my Excelsior Thrasher, and did not read the account until I was fearful it was too late to save my books which were placed in one of your safes, purchased from Mr. Marvin some years ago. My fears were not allayed when I found it necessary upon my return to apply the Croton Water 40 hours before I was enabled to commence operations; after which it required 54 hours of labor and application to raise the Salamander from its ashy bed. You may judge of my anxiety during this delay, and my agreeable surprise upon opening the safe in the presence of a number of gentlemen, to find my books and papers saved, and as legible as they were previous to the fire. The intense heat to which the Safe was subjected, can be conjectured from the condition of another safe, (not a Salamander) of which an iron skeleton frame only remained, and not a vestige of a book. They were companions in the same office, on the second floor, from which they fell upon crates of earthen ware in the cellar, the ruined safe upon the Salamander. If their position had been reversed, not even the skeleton would have remained. My loss over the insurance is $1,000, yet the salvation of my books in your Salamander, with the representatives of $100,000, and important documents which could not be duplicated, has fully compensated me.

It will afford me great pleasure to exhibit the new safe purchased of you, and explain its merits, at my present office, No. 251 Pearl street, where I shall remain until the new building, No. 216, is erected.

Yours respectfully, Joseph G. Gilbert.

The undersigned invite country merchants and those interested in the preservation of their books from fire, (but particularly those having Rich's safe in use) to call at the depot 146 Water street, New York, to see the inferior of Mr. Gilbert's safe with the books undisturbed, which he has kindly permitted to remain for the satisfaction and gratification of the public.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.

JAMES G. WILSON.
May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

JOSEPH P. WOODBURY, August 20, 1851.-dly East Boston, Mass.

REMOVAL. P. W. BADGLEY,

HAS removed to his New Stores, four doors north from his old stand, at **Nos. 103 & 105, E. Water-st.,** where he has on hand a very heavy stock of GROCERIES, and would invite those wishing to purchase goods in his line to give his stock an inspection before purchasing.

It has not only been the aim of the subscriber to sell as low as any other similar establishment in the West, but to convince purchasers that he can and will sell as low as Jobbers of Groceries in New York—and why not? The subscriber has been engaged in the Wholesale Grocery Business in New York for six years prior to opening in this market. He will hold himself in readiness to duplicate any retail merchant's purchases in New York—adding necessary expenses.

His stock on hand consists in part as follows:

THE Proprietor, DR. R. WESSELHOEFT, begs leave to inform the public, that he has recovered from his severe sickness, and is able again to attend to his professional duties. Former and new patients, therefore, may depend upon his giving due attention to their cases. They will also find comfortable and pleasant accommodations both for themselves and friends, but will please to remember that the establishment is intended for the *cure of diseases by means of water,* and not for a hotel at fashionable watering places. G. GRÆSSLE'S PRESSED, FIRE-PROOF TILING

CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Graessle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by occular inspection of the excellent quality of the same.

ENNO MEYER, Druggist, 374 W. Water-st., 2nd ward. Milwaukee, Feb. 5, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Graessle. AUGUST KRUG, Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Graessle, have found them perfectly answering the purpose intended. Their practical and sagacious construction recommend this kind of Tile, not only as a fire proof and perfectly water-proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely moveable position and an intimate connection. Besides this, Mr. Graessle's method of burning the Tiles deprives them of the injurious tendency to absorb water, making them in this way durable; and joining to the above another virtue, viz. that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.

OTTO SCHWARTZ, VICTOR SCHULTE, Architects & Builders. Milwaukee, Feb. 5, 1852.

To G. Graessle:—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof. G. W. MYGATT, Architect. Milwaukee, Feb. 11, 1852.

STOVES, STOVES.

RELIANCE WORKS,

West Water Street, Milwaukee,

Decker & Seville,

Proprietors and General Manufacturers of

STOVES,

(BOTH WOOD AND COAL.) FOR COOKING, PARLOR & OFFICE USE; GRATES, FIRE FRONTS, CITY AND COUNTRY HOLLOW WARE, KETTLES of all kinds; SAD-IRONS, STRAW-CUTTERS, CORN-CRACKERS & SHELLERS, AGRICULTURAL IMPLEMENTS, AND PORTABLE

GRIST MILLS.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the Foundry business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST DOUBLE OVEN COOKING STOVE,

(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the flue back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the benefits of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them.—By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the Cash System (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $3.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be: we invite all who do not wish to pay two profits upon a Hat and are willing to save 25 per cent. to call and see us.

IT WILL STOP

THE MOST EXCRUCIATING PAINS,

IN FROM THREE TO FIVE MINUTES AND HAS CURED

Cramps........In Five Minutes.
Sick Head Ache........In Fifteen Minutes.
Chill Fever........In Fifteen Minutes.
Chilblains........In Five Minutes.
Sore Throat........In Four Hours
Influenza........In One Hour.

SPINAL COMPLAINTS, STIFF JOINTS, STRAINS, BRUISES, CUTS, WOUNDS, FROST BITES, CHOLERA MORBUS, DYSENTERY, TIC DOLOREUX, and all other complaints where there is severe pains, RADWAY'S READY RELIEF will instantly stop pain, and quickly cure the disease.

THE HUMAN FRAME

Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every Joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN

Disorganizes the whole system, it prostrates the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replace the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach; whether it arises from internal derangement, or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system.—Not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN

Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

RADWAY'S READY RELIEF

In a few seconds

WILL STOP THE MOST DISTRESSING PAINS.

Its effects are like electricity; it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

NEURALGIA.

PAIN STOPPED INSTANTLY.

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain-stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE.

The use of Morphine, Strychnine, Acontine, Belledonna Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.*

If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF

IS FREE FROM MORPHINE.

And all other dangerous and narcotic influences. To the weak and paralyzed nervous system it imparts life instead of death; and the pain is stopped by the healthy influences which Radway's Ready Relief imparts to the nerves, instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations, containing this poison, produces on the system.

SICK HEADACHE.

Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,

Diarrhoea, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges,

It relieves the most severe pains in a few minutes—checks the most distressing discharges, and

SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.

PAINS RELIEVED IN FIVE MINUTES.

Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose bones were unsound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER.

CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY.

Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

PAINS OF ALL KINDS.

Whenever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the Stomach, Intestines, in the Liver, Kidneys, Bowels, Joints, Bones, Radway's Ready Relief, taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

BEAUTY.

Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,
Soft and sweet as the fragrant rose,
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAY'S MEDICATED SOAP.

Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases.

TO THE COMPLEXION IT IMPARTS BEAUTY.

By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,
And a healthy action to the skin restored,
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.

Imparts nutriment to the hair,—
Makes it strong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive,
To dress the hair, make it smooth and glossy,
Strong and beautiful, &c.

Radway's Circassian Balm is the "ne plus ultra."

LIVER COMPLAINT.

JAUNDICE, DYSPEPSIA, CHRONIC OR NERVOUS DEBILITY, DISEASE OF THE KIDNEYS, AND all diseases arising from a Disordered Liver or Stomach, such as Constipation, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the sight, Fever and Dull Pain in the Head, DEFICIENCY OF PERSPIRATION, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits, CAN BE EFFECTUALLY CURED BY DR. HOOFLAND'S CELEBRATED GERMAN

BITTERS.

Prepared by Doct. C. M. Jackson, AT THE GERMAN MEDICINE STORE, 120 Arch-st., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED.

[From the Boston Bee.]

The Editor said, Dec. 3d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.

One of the best literary papers published, said, August 25: "Dr. Hoofland's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine—We speak knowingly of Dr. Hoofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

A CERTAIN CURE FOR ALL PAIN MAY BE FOUND IN THE USE OF PERRY DAVIS' VEGETABLE PAIN KILLER.

Opinion of the most prominent Druggists and Merchants of Cincinnati in its favor.

Cincinnati, Oct. 26, 1849.

We the undersigned, Druggists and Merchants of this city, have been acquainted with and sold for 2 or 3 years past, an article of Family Medicine, known as PERRY DAVIS' VEGETABLE PAIN KILLER, and we would assure the public that in every instance, so far as we know, it has given the best satisfaction to the purchaser. We recommend it to the public as an article of Great Merit and Virtue; indeed, we never knew an article of Medicine become so deservedly popular in so short a time, which is proved by the fact of its extensive sale, and constantly increasing demand.

A Word of Caution to the Public.

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co. of Buffalo, which is a worthless imitation and the pamphlets a "BASE FORGERY," which will appear by comparing them with the Genuine. "The certificates are copied verbatim." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." Many unprincipled persons, to deceive the public, and for the sake of gain, have applied the name Pain Killer or something similar to their own compounds such as Pain Destroyer, Pain Killing Compound, a real Pain Killer, &c. &c., all of which have been got up on the reputation of Perry Davis' Pain Killer. The public are cautioned against these mixtures.
